Whitecross Nursery Class

Responsible ♥ Safe ♥ Kind

Our Curriculum Rationale

At Whitecross Nursery, we take a Froebelian, holistic, child-centred approach, recognising the unique strengths, interests and needs of every child.

Through play, curiosity, collaboration and guided exploration, children are supported to express themselves, develop confidence and explore new ideas in a safe, nurturing and inclusive environment.

Our curriculum reflects Curriculum for Excellence at the Early Level and supports children's wellbeing through the SHANARRI indicators: Safe, Healthy, Achieving, Nurtured, Active, Respected, Responsible and Included.

We promote children's rights and participation through our Rights Respecting approach, while Bookbug, stories, songs and rhymes develop language, communication, imagination and a lifelong love of learning.
Forest Friday and regular outdoor experiences encourage children to connect with nature, build resilience, manage appropriate risk and develop physical, social and problem-solving skills.

We work closely with families and our wider community to foster belonging, celebrate each child's milestones and empower every child to make a positive contribution to the world around them.
